ANNOUNCEMENT

For the Year of 1933

Again by means of this small catalogue I wish to call attention to the various lines I handle. This booklet is my salesman. Please look it over. If not in need of any of the items now, you may be later. When you are, I would appreciate an opportunity to quote you.

In addition to the many small items that go to make up the stock of a good farmer's supply store, I sell the following lines: John Deere Farm Machinery, DeLaval Milkers, James and Oakes' Poultry Equipment, Myers Water Systems and Hay Handling Equipment, Papec Ensilage Cutters and Hay Choppers, Maytag Washers and Ironers, Westinghouse Refrigerators, Haverly Milk Coolers, Simplex Barn Equipment, Fowler Oil Burners, General Electric, Atwater Kent and Crosley Radio. Always in selling such dependable merchandise there is a sense of satisfaction in the thought that with the sale goes an assurance to the customer of prompt repair service during the life of any of these goods.

In the purchase of seeds, sixteen years in the business have given me a good knowledge of where to buy the seed best suited to this locality. I buy only the best and from sources that have proven dependable. My Red and Alfalfa clover is Michigan grown and government verified. My corn Pennsylvania and Ohio grown.

In vegetable seeds I import most of my root crops direct from the growers in Denmark. This list includes Cabbage, Cauliflower, Beet, Mangels, Carrot, Celery, Radish and many other vegetable seeds. Many of my flower seeds come from this reliable source. All of this seed is bought in bulk, in quantity, and can be depended on as to germination, vitality and trueness to type.

I deliver the seeds, plants, roots, etc., of such well known houses as Dreer and Burpee, in original packets at their catalogued prices. Would appreciate your orders and give them immediate attention.

Practically all seed is lower in price—this applies particularly to cabbage and other root crops, as well as all field seed.

YOUR OWN FARM RELIEF

How better can you accomplish this than by going back to the old way of producing more on the farm—a productive garden will give a variety of fresh vegetables and an opportunity to can a quantity for winter use. The cost of seed for a family is small. The returns are large.

BEETS

Egyptian Blood Turnip—Early, turnip shaped, flesh deep blood red.

Crosby's Egyptian—Smooth and round in form, matures very early.

Early Bassano — Medium early; flesh pink and light yellow.

Detroit Dark Red — The standard main crop variety, on account of its extra deep coloring is used extensively for canning.

Big Value—Pkt., 5c; oz., 15c; 1-4 lb., 35c.

MANGELS

Mangels—To produce milk at lower cost grow Mangels for feeding. Yields of 40 to 50 tons per acre are common. They are particularly good for young stock and poultry.

Danish Tarjoe—Larger and somewhat darker in color than Golden Tankard.

Golden Tankard—One of the best yielding and most desirable mangels.

Giant Half Sugar — An excellent cooking beet when small, and attain a size of 10 to 12 in. Very desirable for poultry feeding.

Sludstrup—One of the largest growing and most desirable for stock feeding. Per lb., 65c. All varieties.

LETTUCE

Grand Rapids—One of the best early varieties and if transplanted will produce compact bunches of very tender fringed leaves.

Prize Head — Large, loose heads of finely crimped bright green leaves shaded with brown.

Way-a-Head—An early heading variety in which the center is finely blanched to a rich buttery yellow.

Big Boston—The largest heading variety, particularly desirable for late season growth, as it heads up much better in cool weather.

Romaine or Cos Lettuce—Makes a compact upright growth, leaves blanched white inside, very crisp and tender.

All varieties, pkt., 5c; oz., 15c.

CUCUMBERS

Early Cluster—One of the best and most prolific pickling varieties.

White Spine—Very uniform in size and particularly desirable for slicing.

Fordhook Famous—One of the best of the Burpee's specials, attaining a length of 12 to 14 inches, always firm, crisp and of most delicious flavor.

Long Green—Combines good pickling and slicing qualities.

Davis Perfect—Very dark green, resembling hot-house grown cucumbers, as they have few seeds and are excellent slicing variety.

Big value packet, 5c; oz., 20c.

SQUASH

Giant Crookneck—As early as the common while they attain much larger size.

True Hubbard, Golden Hubbard and Warted Hubbard—Excellent keepers of splendid quality. Big packet value, 5c; oz., 20c; lb., \$1.35.

Delicious—A splendid winter variety, dry, sweet and fine flavored.

BEANS—WAX AND GREEN PODDED

Wardwell, Kidney Wax — An early flat podded variety, one of the best.

Burpee's Pencil Pod Black Wax—Very productive, early and entirely stringless.

Burpee's Brittle Wax — The earliest of all wax beans, round, fleshy pods, of superb quality.

Bountiful—Flat green pods, early.

Refugees—Round green pods, very desirable for canning.

Henderson's Bush Lima—Earliest and most dependable lima.

Big value packet, 10c; lb., 30c.

POLE BEANS

Kentucky Wonder or Old Homestead — Long green pods, very productive.

Golden Cluster Wax—Flat, wide pods, stringless and of excellent flavor.

Early Leviathan—An early pole lima.

Big value packet, 10c; lb., 40c.

ONIONS—BURPEE'S SEED

Prizetaker — Somewhat later but much larger than the Danvers.

Big value packet, 10c; oz., 30c; lb., \$2.50.

Yellow Globe Danvers—The best table and general market variety. Packet, 10c; oz., 20c; lb., \$1.75.

Southport White Globe—One of the best keeping and best yielding white onions. Big value packet, 10c; oz., 30c; lb., \$2.65.

Red Weatherfield—The standard variety, always a desirable cooking onion. Big value packet, 10c; oz., 25c; lb., \$1.85.

Ebenezer or Japanese—Very mild and tender, particularly good keeper.

CELERY

Golden Self-Blanching — The best early self-blanching variety. Packets, 10c; 1-2 oz., 40c.

White Plume—An excellent early sort, but not desirable for keeping. Big value packet, 10c; 1-2 oz., 20c.

TOMATO

Bonney Best—Early, large fruit, solid red and do not crack.

Chalk's Early Jewel — One of the earliest and smoothest light red sorts.

Earliana — The standard early variety and one of the earliest.

Matchless—Best large-fruited main crop tomato.

Ponderosa—A very large, dark red, main crop variety.

Golden Queen—Standard main crop yellow fruit-variety.

Marglobe—An outstanding new variety, particularly disease resistant.

CARROTS

Chantenay or Model—Finest quality, especially desirable for canning.

Danvers Half Long — One of the best market varieties.

Amsterdam Forcing—An excellent quick growing variety.

Large White Belgian — Grown extensively for rabbit feeding.

Big value packet, 5c; oz., 15c.

RADISH

Earliest Scarlet Button—Small, extra early.

Scarlet White Tip—Quick growing and a good market variety.

White Icicle—Very crisp and tender, retaining these qualities much longer than other varieties.

Winter Radish—Round Black Spanish.

Big value packet, 5c; oz., 15c.

TURNIP

Purple Top White Globe—Desirable as a table or feeding variety.

White Rutabaga — One of the best large table varieties.

Yellow Rutabaga — An excellent cooking sort, preferred by many to the white. Either of above, oz., 10c; 1-4 lb., 20c; 1 lb., 75c.

Long White Cowhorn — A long yellow feeding turnip, 1 lb., 60c.

Purple Top Strap Leaf—Good for cooking when small, and a desirable feeding variety. Oz., 15c; 1-4 lb., 35c; 1 lb., 50c.

COST AND QUALITY

My seed is put up in 5c packets, containing as large quantity as any of the commission seed firms, many of whom sell their packets at 10c. Seed is put up as used, from new stocks, thus assuring our trade of fresh seed of high germination and strong vitality.

Comparison of my prices with those shown in other seed catalogues will indicate that the average is decidedly in my favor with the added advantage that you can buy when needed.

The quality of my seed is the best, and will be found dependable in every particular. On account of a constantly changing market with downward tendency I do not quote on field seed. Price is as low as will be found elsewhere on similar quality.

PEAS

Nott's Excelsior—One of the largest pod dwarf varieties and one of the best yielders.

Premium Gem—An improved variety, producing well-filled pods.

Gradus — The best and earliest of the larger growing varieties.

Thomas Laxton—Similar to Gradus, both growing about 2 to 3 feet.

Laxtonian—Largest pod of the dwarf varieties; used extensively as an early market variety.

Dark Pod Telephone—The most desirable later variety.

Bliss Everbearing — Very prolific, continues to bloom and bear longer than most varieties.

Champion of England—Big yielding late variety. All varieties, 25c lb.

Special prices in quantity.

Write for prices by the bushel for field planting.

ENGLISH GARDEN TOOLS

Light but strong. Price, 10c to 39c.

SWEET CORN

Golden Hummer—A new early yellow variety, larger than Bantam and ten days earlier.

| | |
|----------------------------|-------------------|
| Golden Bantam |per lb., 30c |
| Black Mexican |per lb., 25c |
| Early Minnesota |per lb., 25c |
| Howling Mob |per lb., 25c |
| Hickok Improved |per lb., 25c |
| Stowell's Evergreen |per lb., 20c |

Either of the latter varieties for field planting at \$4.00 per bushel.

FIELD SEEDS

Prices Lower Than in Many Years

Our stocks of field seeds have been selected with care, are the best obtainable in every instance and are seeds adapted to this territory. By early and ample purchases we are well prepared to supply customers with highest grade seeds of proven purity and good vitality.

Timothy — Conklin's "King" and Stanford's "Liberty" brands, 99.65 per cent pure.

Clover—Medium Red; United States verification of origin.

Alsike—Imperial brand; highest grade seed.

Alsike and Timothy Mixture—This is clean seed and is sold at a very low price.

Alfalfa—Canadian Variegated and Grimm. The latter Michigan grown, United States verification of origin and all in sealed bags.

White Blossom Sweet Clover — Particularly desirable in a pasture mixture.

We have inoculation for all legumes.

Pasture Mixture — We have a special pasture mixture containing the proper proportion of early grasses, desirable clovers and those grasses which will withstand dry weather and late summer conditions.

Special Lawn Mixture—Made up of those grasses which provide a short thick growth, also adapted to shady places. Our mixtures are made up of the best varieties, some of them imported, for producing a thick velvety lawn.

Other grasses which we carry in stock are Red Top, Orchard Grass, Kentucky Bluegrass, European and Creeping Bent, Sheep's Fescue, Wood Meadow Grass, White Dutch Clover, Alsike and White Dutch mixture, making a desirable pasture clover; also Alsike and Timothy mixture.

SEED GRAINS

| | |
|-----------------------|-----------------|
| Early Wonder Oats | Ithacan Oats |
| Oderbrucker Barley | Alpha Barley |
| Marquis Wheat | Cornellian Oats |
| Canadian Swedish Oats | Japanese Millet |
| Speltz or Emmer | Buckwheat |

NITRAGIN SEED INOCULANT

For all clovers, peas, vetch, beans, etc. It pays to inoculate all legumes.

VETCH

Sown with oats or oats and peas for silage, or for hay, vetch is a valuable crop. We have both the spring and winter varieties, but recommend the latter, as it does better in this locality, and, being a biennial, gives a good crop the second year.

SUDAN GRASS

Coming into general use within the last few years, Sudan Grass has already demonstrated its value as a forage crop for hay. It makes a larger growth than Millet, will produce two crops and cattle prefer it to any other kind of Millet.

MILK AT LOWER COST

Instead of waiting for the price of milk to go up, start now to produce it at lower cost. Three crops that will help you do this are Alfalfa, Root crops, such as Mangels, Turnips, Cabbage or Soy Beans, and good silage produced from early maturing varieties of corn.

Soy Bean Hay, Cut before beans have ripened, has a greater value in protein and fats than Alfalfa hay.

Soy Beans, cut green and packed with corn for silage, will make a perfect ration of much greater value than corn alone.

Sunflower is a most desirable crop for ensilage; cut when about one-fifth in seed before stalks become hollow, it compares with Alfalfa for feeding value.

Dwarf Essex Rape — Particularly desirable for hogs, hens or sheep. Makes a quick growth and can be pastured down or mown repeatedly.

COME TO US FOR GOOD SEED CORN

Our principal sales of corn for silage are the Sweepstakes type. Our stock of this superior corn comes to us from one of the largest seed corn houses, which is equipped with every facility for curing and handling corn. This insures clean seed, properly graded and of dependable germination. The Sweepstakes corn gives a satisfactory green tonnage, ears heavily and reaches a desirable stage of maturity at the time of silage harvest.

We have assurance from our growers that the quality as well as germination of our West Branch Sweepstakes seed will be up to the highest quality of former years.

Lancaster County Sure Crop—This is a Southern Pennsylvania grown, early maturing variety of the Sweepstakes type. It makes a growth of stalk, leaves and ears similar to this variety and matures ears to about the same degree.

Conklin's Early Wonder—An excellent early ensilage variety of the Sweepstakes type put out by E. W. Conklin & Son.

Blue Mountain Ensilage—A superior strain of the large Eureka corn. This seed is Virginia grown, is selected for seed purposes and is the largest growing ensilage corn.

Cornell 11—One of the earliest dent varieties grown in the East.

In addition to the above we have Smoky Dent, Early Eureka, Leaming and Pride of the North.

CERTIFIED SEED POTATOES

White Rurals—This variety takes the place of No. 9's, Heavy Weights, Rural New Yorkers, Sir Walter Raleighs and some other less known strains, which are practically the same and have been standardized by the New York Potato Growers' Association under the name of Smooth Rurals or White Rurals.

Irish Cobblers — One of the best early White varieties, always has a good market for seed stock.

Rural Russets — An excellent cooking variety and good yielder.

In addition to the above certified seed we always have home grown stock of standard varieties.

FIELD OR FLINT CORN

King Philip—This is a red glaze corn, making large growth of stalk and yielding far ahead of most yellow varieties; a ninety day corn.

Sanford White—Our stock is early and will mature in almost any locality.

Eight and Twelve Yellow Flint—Many people prefer yellow corn, and it is always dependable. We have good seed.

We handle only locally grown flint corn. Experience has shown that this corn when shipped in from other localities is not apt to mature here. We therefore sell only home grown seed.

On account of a constantly changing market and the desire to quote closely at all times, we do not issue price with catalog. The enclosed card will bring information on any items you may be interested in. If you drive in for seed you may rest assured you will find what you want and that the price and quality will be right.

BERRY PLANTS

Strawberry Plants: Dr. Burrill, Gibson, Senator Dunlap, 35c for 25, \$1.15 per hundred; Black Raspberries, Kansas and Plum Farmer, 75c per doz., \$3.00 per hundred; Columbias, \$1.25 per doz., \$6.50 per hundred. Prices of any other kind of berries or different varieties of the above quoted on request; special prices in quantity.

BULBS AND ROOTS

Asparagus roots, Conover's Colossal and Washington, \$1.75 per hundred. Dahlia, Gladiolus, Canna, Peony, Phlox are carried in stock. Other bulbs obtained quickly at catalog prices.

Cyanogas — Cyanide gas for killing rodents in burrows and for woodchucks.

Semesan — A mercurial disinfectant for the control of seed plant and soil diseases, a preventive of many crop diseases, an aid to better germination of seed and stronger vitality of plants.

SPRAYING MATERIALS AND INSECTICIDES

Pyrox — Kills all eating insects and prevents blight. A combination of arsenate of lead and Bordeaux mixture put up in convenient form. A general insecticide and fungicide.

"Black Leaf 40" Nicotine Sulphate

(40 per cent Nicotine), guaranteed—The standard contact insecticide for spraying fruits, vegetables, rose bushes, plants, etc., in the control of aphids, leaf hopper and any sucking insect. It is absolutely effective without any possibility of injury to the plant. 1 oz. bottle, sufficient for 6 gallons of spray, 35c.

We have this in larger containers for killing lice on poultry.

Dry Powdered Lime and Sulphur—For dormant spraying of fruit trees and in combination with other material for later spraying.

Dry Powdered Arsenate of Lead — Arsenate of zinc, Bordeaux and combination of the latter, making a desirable general spray material to be used for dusting or spraying; also Sulphate of Copper, Lime, etc.

Dusts and spraying material to treat for bugs, blight and lice in one application.

Brown Sprayers, a complete line of hand and power sprayers. As we have sold these for a number of years we carry packings, valves, etc., so we are in a position to render service. It pays to buy one for which you can get repairs.

GALVANIZED WATER TANKS

Round end storage tanks from 2 to 8-barrel capacity or larger. These tanks are made of heavy galvanized iron with angle iron frame and supports, well riveted and soldered. Suitable for use as stock watering or for sap or water storage. Reasonably priced.

Harrow Points—Double wear points can be attached to any harrow tooth. Price, each, **35c.** Harrow shoes with bolts, **\$2.75 per set.**

GOODYEAR MECHANICAL RUBBER GOODS

Glide and Klingtite belting in endless and cut length. These belts are frictioned surfaced, will not shrink or stretch and stand up to the work for years of satisfactory service.

We also have Sawyer endless belts and have a large stock of second-hand leather belting in all widths up to 19 inches.

STEWART CLIPPERS

The new Clipmaster electric for \$17.00; the same to operate by battery, \$20.00.

We have the hand operated machines for \$11.50 and second-hand re-conditioned clippers as low as \$5.50.

We grind clipper knives.

1 $\frac{3}{4}$ inch Standard Farm Harness from \$38.00 to \$49.00; up in quality, down in price.

An all leather collar for \$3.75.

Team Harness—Are lower in price than in many years. This applies to collars and harness parts as well.

We have a large stock of army halters, ties, collars and extra harness parts.

We carry dog collars and harnesses.

FOR THE DAIRY

B-K Sterilizing Solution, H-T-H Sterilizing Powder, Wyandotte Cleanser, Milking Machine Hose, Milk Scales, Brushes, Ties, Ear Tags, Disinfectants, Stock Food, Kow-Kare, Dr. Naylor's products.

POULTRY SUPPLIES

Brooders—Electric, Oil and Coal.

Incubators—Oil and Electric.

Thermometers for incubators and brooders.

Thermostat wafers—Egg Graders—Fountains—Feeders — Hoppers — Putnam Stoves — Brooder Heaters—Leg Bands — Carbolinium — Dr. Hess' Remedies.

BABY CHICKS

For several years we have distributed several thousand chicks from one of the largest hatcheries in the country. This is certified stock and customers have found them true to type, healthy and good layers.

Prices vary to such an extent through the season that we do not quote here. Ask for prices, stating number wanted.

DE LAVAL MILKER

De Laval Magnetic Milker — The standard by which others are judged.

De Laval Separators—Present conditions of the fluid milk market will make butter prices look good.

BIRDS AND SUPPLIES

A large assortment of brass and enameled cages and stands, also brackets, bath and feed cups springs, etc. Max Geisler's roller seed, remedies and all bird products. Song restorer, little bird food, bird grit and all bird seed in bulk.

St. Andreasberg Rollers; the finest singing canaries.

Fig. 2544 — Myers Junior Direct Water System

For shallow wells or cisterns up to 22 feet in depth. Here is another Myers System which automatically pumps water direct from the well to the faucet — and where low price and absolute dependability are the big factors, Fig. 2544 is an outstanding value. You can buy one of these complete units, all ready to install, for considerably less than you are asked to pay for the average electric washing machine. Capacities 250 to 300 gallons per hour. Designed for operation with central station electric current or farm lighting plant.

Ask your dealer to show you this marvelous self-oiling, entirely automatic water system of true Myers quality and value.

JOHN DEERE ALL STEEL FARM TRUCK

An all steel short turn gear with roller bearing wheels, complete with horse and tractor hitch, \$52.50.

The John Deere trade mark is the best known implement trade mark in the world. It is the certificate of character that represents John Deere prestige—the good opinion of enough people based on actual field experience to make John Deere implements the world's standard for nearly a century.

Believing that one full line is better for purchaser as well as dealer, and believing that the John Deere is the one best line, we sell John Deere implements exclusively. Every implement bearing this well known trade mark is made in a John Deere Factory, and the purchaser is assured of prompt repair service during the life of that implement. You are not buying an orphan when you buy a John Deere product.

With a factory and distributing house in Syracuse the company is in position, and has a disposition to render prompt and efficient service in this territory. As a dealer desiring to constantly improve my business, I increase the company's will

John Deere Tractors Burn Low-Grade Fuel Which Costs 6- to 8-Cents a Gallon

to serve by giving the best possible dealer help, employing competent mechanics to set up and service any equipment I sell.

If you could adopt a system of farming that would materially lower your production cost per bushel or per ton you would automatically increase your crop profits. If, in this new system of farming, you have more time to diversify—to care for stock—to properly handle more cattle, hogs, chickens and other live stock, you will step up your net income.

That's precisely the result you will get by adopting a system of farming that includes the John Deere Economy Tractor and power equipment.

It costs less to operate John Deere Tractors—less for fuel, less for repairs and less for general upkeep. They are built to save you money—the big reason why, with the John Deere Tractor and equipment, production costs are usually lower.

Whether you want a tractor for the bigger farm jobs, or for general use including row crop operation, there's a John Deere Economy Tractor that's suited to your particular need.

Cultivating from 25 to 40 acres a day with the John Deere General Purpose Tractor and 3 row cultivator.

JOHN DEERE GENERAL PURPOSE TRACTOR Does All Farm Jobs Well

The John Deere General Purpose Tractor, with 3-row planting and cultivating equipment, will enable you to handle larger acreage with less help, in less time and at lower cost. You have better assurance of bigger crops because you can take full advantage of favorable weather and soil conditions.

You can do the work when it should be done.

With the General Purpose and its equipment, you can plant from 30 to 40 acres a day, cultivate from 25 to 40 acres a day, and you can do all other farm jobs within its power range. Pulls two bottoms in plowing. The General Purpose meets all power requirements on many farms, and is a profitable team-mate for the John Deere Model D in cost-reducing farm programs on the larger farms.

Money-Making Equipment for Your Farm

JOHN DEERE CORN BINDER

This binder is unusually easy to operate. Power carrier delivers bundles free of horses' path and practically at right angles to standing corn. All-steel, quick-turn tongue truck takes neck weight from horses. Axle of truck is flexibly mounted—wheels hold to uneven ground.

Wide range of adjustment, seventeen roller and ball bearings, perfect delivery of cut corn to binder attachment, and unusual strength throughout are other important features.

Stiff pole, tractor hitches and bundle elevator can be furnished.

THE NEW JOHN DEERE SPREADER

With the Beater on the Axle and Box-Roll Turn

The New John Deere — the only spreader with the beater on the axle and box-roll turn, is a real money-maker for every farmer

who raises live stock. It's easy to load, easy to pull . . . it does better work and lasts longer. Users say that it pays for itself many times over during its long life.

Lime spreading attachment, endgate attachment, tractor hitch, and brake can be furnished.

JOHN DEERE RAKER BAR-CYLINDER LOADER

This new combination raker bar-cylinder loader does a clean job of raking on uneven ground. It has a solid steel deck, floating gathering cylinder, 3-point suspension, and fewer raker bars. The floating cylinder combined with slow-moving raker bars save the leaves.

A BETTER WAY TO PUT UP HAY

Model K 3-Roll Papee Chopper

Disregarding the chopper's value as a silo filler, it will pay for itself in one or two seasons by the extra profits that come from feeding chopped hay instead of whole hay. Cows often increase their production 20%. Steers put on 100 lbs. of gain for \$1.40 less feed cost. All feeding waste is eliminated. Your barn holds twice as much hay. The hay keeps fully as well or better. It is much easier to feed out. Call or write for your copy of the Papee booklet describing this new way of handling the hay crop.

REPAIR ITEMS

You appreciate time and labor saving as well as convenience in being able to obtain from stock such items as sections, guards, knife heads, pitman boxes and all wearing parts of mowers, binders and corn harvesters. It is equally convenient if you can obtain quickly, usually from stock, binder canvass, slats, chain links, etc.

MACHINERY REPAIRS

You will find we give careful attention to all repair orders, as we consider this an important part of our business.

We believe the goods enumerated possess especial merit, and as we take advantage of every possible buying discount, are in a position to make favorable prices.

SECOND - HAND GOODS

We always have bargains in Second-Hand Goods. Just now we have a number of 1½ to 4 H. P. engines, also used washing machines.

We are just in receipt of an announcement by the John Deere Company that the wheat allowance made last season on tractors and tractor drawn machinery is this year extended to include the entire line. This means a substantial price reduction on John Deere Implements.

SKINNER'S SEED AND SUPPLY STORE,
Norwich, N. Y.

We carry a stock of saddles, bridles and riding equipment. Some bargains in used saddles and bridles.

Fig. 2510 — Myers Shallow Well Water System

Where the well or cistern is not more than 22 feet deep this low-priced, quality-built water system is ideally adapted. Capacities 250 to 300 gallons per hour. Completely automatic control. Self-starting, self-stopping, self-oiling. Designed for operation with central station electric current or farm lighting plant. Furnishes all the comfort and convenience of running water always on tap—at very low cost for installation and operation. Thoroughly dependable.

A farm water supply is one of the greatest conveniences, and when used to supply water to the dairy is a source of income.

GOOD CABBAGE SEED

Our seed stock is the best obtainable, both imported and American grown are secured from sources we have found by years of experience to be dependable.

Our imported seed is from Ohlsens, one of the oldest firms in Denmark specializing in cabbage seed of the Danish shortstemmed type. We have the Ballhead Copenhagen Market, Golden Acre, Glory and Red Kissendrug from this source.

American grown seed is from one of the larger growers in the Seattle, Washington district and has proven true to type, very hard heads and producing heavy tonnage. We have both Ballhead and Red in this seed. No better seed grown.

American Grown Ballhead $\frac{1}{2}$ lb. \$1.50, 1 lb. \$2.75 — Imported Ballhead $\frac{1}{2}$ lb. \$1.75, 1 lb. \$3.15

— Seeds Sent Postpaid at These Prices —

In addition to cabbage we import Beets, Mangles, Carrots, Turnips and other vegetable seeds as well as most flower seeds.

GOOD SEED CORN

Our best Ensilage corn is Pennsylvania grown Sweepstakes, carefully graded; butted and tipped; runs uniform in size. Because of this and its high germination less seed is required per acre. Other varieties are Lancaster Co. Sure Crop, Early Wonder, Cornell II, Blue Mountain Ensilage, Smoky Dent.

HARDY CLOVER SEED

Both our Red and Alsike Clover is Michigan grown, U. S. Government verified as to origin and can be depended on to withstand our severe climate. Because of its known vitality, germination and adaptability less seed is required per acre.

KLIPPED COWS KEEP KLEAN—We sell and service Stewart Clippers, carrying a good stock of repair parts and grinding knives, charging 40 cents for hand, 50 cents for electric. Mail them in.
